

# OxyBand

the HEALING POWER of OXYGEN

... the new frontier in  
wound care

**We are looking for experienced, qualified, Independent Medical Sales Representatives to sell a completely unique FDA cleared, oxygen wound dressing line, OxyBand.**

OxyBand Technologies, Inc. has recently launched its inaugural wound care device, the OxyBand Wound Dressing, a patented, one of a kind wound dressing that diffuses oxygen into a wound for up to 5 days. The United States Army Institute for Surgical Research recently completed a clinical trial evaluating and confirming the efficacy of OxyBand. According to the published results, OxyBand Wound Dressing significantly accelerated healing by at least 3 days (25%) and significantly reduced pain at the wound site for larger donor site wounds without any infection compared to the standard of care. (JBCR, Supplement, March 2013).

Generous Commission for selling this exceptional line of wound dressings. More product development is underway. Grow with the company. Please send resume to [jobs@oxyband.com](mailto:jobs@oxyband.com) or call 415 302 9713 or call 415 533 6455 for more information.

#### **About OxyBand Technologies, Inc.**

OxyBand Technologies, Inc. develops proprietary patented biomedical technologies for traumatic and other acute wounds, diabetic and chronic skin ulcers, eye diseases, orthopedics, regenerative medicine, antimicrobial healing and cosmetic procedures among others. OxyBand has a comprehensive patent portfolio, a pipeline and an FDA approved unique medical device, OxyBand Wound Dressing™ that has been shown in three clinical trials to heal wounds faster with less pain and inflammation, and without infection compared to standard of care and placebo.

OxyBand offers **top level commissions** to the right individuals.
